SUMMARY

Founder & Product Lead with a proven track record of bringing innovative, AI/ML-driven products from conception to production. Expertise in full-stack UX/UI design and strategic product development. Seeking a foundational role within a dynamic team to apply my entrepreneurial experience, contribute deeply to a single product, and grow with the company long-term.

PROFESSIONAL EXPERIENCE

Webzspot Technologies, (Remote, India) — UX Designer

May 2023 – February 2024

Collaborated on the redesign of the Webzspot Technologies corporate website, enhancing user experience and visual presentation using Figma prototypes for handoff.

Adarsh Printing Press, (Uttar Pradesh, India) — Graphic Designer

October 2022 – April 2023

Designed brand collateral and custom illustrations, managing projects from concept to delivery.

ENTREPRENEURIAL VENTURES & KEY PROJECT

Rasoipay.com, Founder & Product Lead — UX/UI Engineer

April 2025 – Present

- Conceived, designed, and developed **rasoipay.com**, a QR-powered restaurant management SaaS platform, from initial UX concepts to a live, production-ready application.
- Owned the end-to-end product lifecycle, from UX research and Figma design to full-stack development (Next.js, Firebase), technical architecture, and security.
- Engineered core functionalities leveraging **AI and genetic coding** for optimized menu recommendations and adaptive order routing to enhance system efficiency.
- Secured early partnerships and managed user feedback, payment integration (Cashfree), and performance optimization (sub-50ms menu load) for continuous iteration.

Iqra - Roman Hindi Quran App (Live Product) — Co-Designer & UX Lead

January 2023 – April 2023

- Co-designed and launched Iqra, a Quran app for Roman Hindi users, now live on the **Google Play Store & Apple App Store**.
- Led the UX/UI design process, from user research to creating an accessible interface with voice navigation, and collaborated with a partner through successful deployment.

SKILLS

- UX/UI Design:** User Research, Wireframing, Prototyping, Usability Testing, Information Architecture, Interaction Design, Design Systems (Figma, Auto Layout, Variants), Responsive Design, Accessibility
- Tools:** Figma, Adobe XD, Adobe Photoshop, Hotjar, Maze, Google Analytics, Sketch
- Product Development:** Product Strategy, Roadmap Planning, Full Stack Development (Next.js, Firebase), AI/ML Integration, Genetic Coding Concepts, Payment Gateway Integration (Cashfree), Project Management
